

Pulse Oximeter Sensors (International)

Compatible sensors, adapters, and extension cables that are of equal comfort and quality as those of leading original equipment manufacturers.

Reusable SpO₂ Finger Sensor

Reusable finger clip sensor is suitable for multiple patient use. It is designed to fit a wide range of digits including adults and pediatrics.

Disposable SpO₂ Finger Sensor

Made from microfoam tape, these adhesive sensors come in four convenient sizes: adult, adult/pediatric, infant, neonate.

Soft Sensors

Soft sensors are designed for multiple patient use for either spot checking or long term monitoring. Two sizes accommodate a large range of patients from large adults to children as young as age two.

Ear Lobe Sensor

The Earlobe sensor is intended on use with patients who have poor peripheral circulation or when it is not convenient to use a finger sensor. It is especially useful during treadmill tests or when patient motion is anticipated.

SpO₂ Y Sensor

Reusable compatible sensor for use in a variety of SpO₂ monitoring applications.

Adapter & Extension Cable

Allows for greater versatility and convenience with your pulse oximetry sensor.

Partial List of OEM Compatibility

Baxter®, BCI®, Citikon®, Corometrics®, Criticare®, Datascope®, Datex-Ohmeda®, Hewlett Packard®, MEK®, Nellcor®, Nonin®, Novamatrix®, Schiller®, Siemens®, Spacelabs®
